Warrant issued for Dr. Albert E. Lewis, dentist, 312 S. Clark st. No license.

Charles C. Thompson, publisher who made good \$33,000 debts, died at Englewood Hospital.

JUDGE SHOWS UP WRONGS OF THE JOHN WORTHY SCHOOL

Judge Merritt W. Pinckney of the Juvenile Court in his annual report to the county board, which contains a very caustic criticism of conditions at the John Worthy School, calls attention to the following wrongs at that institution:

"There is no place where the dependent boys can be kept segregated from the dependent girls.

"There is no playground connected with the present detention home, and there is no indoor room for space except a corridor for the boys and a corridor for the girls, each corridor 50x 4½ feet wide.

"There is only one room for isolation purposes, which room is about 6x8 feet.

"The dormitory space is so limited that the children are obliged to dress in their diningrooms.

"The sleeping quarters, according to the regulations of the board of health, are entirely insufficient to meet requirements.

"Boys are frequently kept in police stations over night because sleeping accommodations are not sufficient.

"Girls are frequently kept at the so-called Harrison street annex for the same reason.

"Serious epidemics of contagious diseases have prevailed in the detention home in recent years because of the lack of an isolation ward."

Spain's yearly average of sunshine—the highest in Europe—is 2,000 hours; that of England, only 1,400 hours
